

Meet the everyday classic preserver

Quality clothes are made to be worn, but everyday pieces need care to maintain their condition. Whether you wash one shirt or a full load, AEG washing machines will adjust the cycle accordingly, reducing wear and tear by taking the minimum amount of time, water and energy necessary for a thorough clean.

Product Benefits & Features

Caring for clothes. Saving water and energy

ProSense technology® automatically weighs each load to provide a tailored cycle. Sensors adjust washing times precisely with just the right amount of water used, ensuring optimum treatment for every garment whilst saving water and energy.

Protection for your clothes

All AEG machines have our ProTex gentle drum, specially designed to take care of your clothes. Gentle water jets lift and protect your laundry as it washes. With more holes than standard machines, our drum reduces the stretching of fabric, maintaining the shape and texture of

INVERTER MOTOR+. DURABLE AND ENERGY-EFFICIENT

Experience energy-efficient washing for longer with the Inverter Motor+. Built for low energy consumption thanks to permanent magnet motor technology.

Choose the right time to wash

Delay Start gives you the freedom to do your washing at the time you prefer by allowing you to automatically set the start time of your washing cycle.

Steam Anti Allergy Programme removes 99,99% of bacteria and viruses*

The Steam Anti Allergy Programme, certified by Swisstest, combines a wash cycle and steam to remove more than 99,99% of bacteria and viruses* above 60°C. Pollen and allergens are also reduced for hygienically clean clothes after every wash.
